

Moscow Mills Recycling Program

The recycling program across the U.S. is in turmoil due to a change in other countries which accepted our recyclables in the past. They will no longer accept them. This means we no longer will be able to enjoy curbside recycling of Fibrous Materials. By now you have received the brochure from Meridian Waste explaining what items are available to recycle curbside and which items would be available to recycle at assigned drop-off locations. That brochure indicates Fibrous Materials would be recycled at three different drop-off locations. When the brochure went to print it was accurate. Since then it was re-thought and the **Moscow Mills location of 703 Main Street has been eliminated.**

The good news ... **You can still recycle fibrous material at 975 Main Street.** This is located next to City Hall near the Restroom for the old Moscow Mills Ball Field. Please look for the rock parking lot with the Blue Dumpster.

If you have questions please call City Hall. 636-356-4220

Please Note:

Fibrous Material Recycling at 975 Main Street next to the old Ball Field in the Blue Recycling Dumpster.

No Trash Please ... Violators will be Prosecuted.
