Residents of Moscow Mills

19 October, 2020

I'm pleased to announce the City of Moscow Mills has signed a new contract with Meridian Waste Management for the next three years. There is some exciting news that accompanies this contract. Meridian waste will be returning to single stream recycling. This means you can load the 65-gallon recycling tote with your fibrous materials and it will be picked up at the curb. The large dumpster located at City Hall will still be available for all cardboard you wish to dispose that won't fit into the tote at your home. Unfortunately, glass will remain an item that is still not accepted due to the lack of a resale market for the crushed glass.

In addition, the City has listened to the residents requesting Bulky pick-up (White goods/mattress etc.). Meridian will begin to pick up Bulky items once a month. One item per month only, additional items come with an additional charge.

Here is the bonus ... Yard Waste. Meridian will also pick-up yard waste at the curb contained in resident provided containers or bags. Yes, it has limits: 3 cubic yards and not more than 50lbs. The length of limbs should be no longer than 3 feet and diameters not exceeding 4 inches.

All these additional services in 2021 with a price decrease of \$2.60 per month lower than the 2020 prices. This is great news considering you get additional services of Single Stream Recycling, Bulky Trash hauling, and Yard Waste all included for less than what you paid the year before.

Meridian Waste will be providing educational material directly to your home in the near future with further instructions on waste hauling and how it applies to you.
